

HOW TO COMMUNICATE SUCCESSFULLY WITH PROJECT TEAMS - ACCELERATED

Course Code: MH203E

Duration: 7 hours

Credits: 7 PDUs

Course Description

Participants will be introduced to various forms of communication and the skills to effectively communicate critical project information in a concise, timely and targeted format. Participants are provided examples taking into consideration communication barriers, verbal and non-verbal messaging elements, group and electronic communications and intercultural diversity. Individual exercises combined with interactive group discussions, and role play, participants apply learnt communication skills to engage and interact with project teams and stakeholders.

Target Audience

Individuals who will benefit from this course include Project Managers/Leaders, Team Members, Administration and Management

Course Objectives

Effective communication is the foundation of project success, helping course participants better understand all project stakeholders and to express themselves more effectively.
