

## SAFe FOR ARCHITECTS

**Course Code: C105**

**Duration: 3 days**

**Credits: 24 PDUs**

### Course Description

In this comprehensive three-day course attendees will improve collaboration and alignment in a SAFe® Lean – Agile enterprise when they become a SAFe 4 Architect. The SAFe® for Architects course prepares System, Solution, and Enterprise Architects to engage across the organization as effective leaders and change agents who collaboratively deliver architectural solutions. During this three-day course, attendees will explore the roles, responsibilities, and mindset of Agile Architects, and appreciate how to align architecture with business value and drive continuous flow to large systems-of-systems while supporting SAFe program execution.

This course is for senior technical contributors who need to understand the role of System, Solution, and Enterprise Architects in Lean – Agile enterprises. The course is also appropriate for individuals desiring a deeper view into how architecture enables continuous value flow and how architects engage in, and contribute to, a Lean – Agile enterprise.

### Target Audience

Individuals who will benefit from this course include System, Solution, and Enterprise architects; Architects in supporting technical disciplines; experienced software developers, technical managers making architectural decisions; product leaders collaborating with architects and those interested in pursuing a SAFe® 4 Architect certification.

### Course Objectives

- Architect using SAFe principles
  - Align architecture with business value
  - Develop and communicate architecture vision and intent
  - Plan architectural runway to enable delivery success
  - Architect for continuous delivery and Release on Demand
  - Lead and coach architects and team members during Program Increment (PI) Planning and execution
  - Provide leadership during a Lean-Agile transformation
- 

### Course Outline

---

- Exemplifying Lean-Agile architecture
- Architecting for DevOps and Release on Demand
- Aligning architecture with business value
- Developing Solution Vision, Solution Intent, and Roadmaps
- Preparing architecture for Program Increment (PI) Planning
- Coordinating architecture throughout PI Planning
- Supporting Continuous Delivery during PI execution
- Supporting new Strategic Themes and Value Streams
- Leading as an architect during a Lean-Agile transformation
