

## LEADING SAFe

**Course Code: C101**

**Duration: 2 days**

**Credits: 15 PDUs**

### Course Description

In this comprehensive two-day course attendees will gain knowledge necessary to lead a Lean-Agile enterprise by leveraging the Scaled Agile Framework® (SAFe®), and its underlying principles. Attendees will also learn and practice the skills for supporting and executing PI Planning events and coordinating multiple Agile Release Trains (ARTs). Attendees will gain an understanding of the Lean-Agile mindset, why it's so effective in today's adapt-or-die marketplace, and what it means to lead a Lean-Agile transformation. They'll also learn how to build and support Agile teams and programs, empower a Lean Portfolio, build a Continuous Delivery Pipeline and DevOps culture, and coordinate large solutions. They will develop a skillset that's in demand worldwide — and empower their enterprises to succeed in a disruptive marketplace — when they become a SAFe® 5 Agilist (SA). Attending this course prepares you to take the SA exam and become a SAFe® Agilist. Attendees who pass the exam receive a SAFe Agilist certificate, a one-year certified membership as a SAFe Agilist, and a SAFe Agilist branding kit with the SA certification mark.

### Target Audience

Individuals who will benefit from this course include CEO, Program or Project Manager, Scrum Master, Team Lead, Release Train Engineer, Business Analyst, Agile Coach, CIO, Portfolio Manager, Consultant, Engineer, Program Manager, Change Agent, Solution or Systems Architect and anyone interested in learning more about leveraging and applying Scaled Agile Framework®.
