SAFe PRODUCT OWNER/PRODUCT MANAGER

Course Code: C104
Duration: 2 days
Credits: 15 PDUs

Course Description

In this comprehensive two-day course attendees will develop the skillsets needed to guide the delivery of value in a Lean enterprise—and learn about the activities, tools, and mechanics used to manage backlogs and programs—by becoming a SAFe® 5 Product Owner/Product Manager (POPM). The attendees will also gain an in-depth understanding of the Agile Release Train (ART), how it delivers value, and what they can do to effectively perform their role.

They will also learn how to apply Lean thinking to write Epics, break them down into Features and Stories, plan and execute Iterations, and plan Program Increments. Finally, attendees learn about the Continuous Delivery Pipeline and DevOps culture, how to effectively integrate as Product Owners and Product Managers, and what it takes to relentlessly improve the ART.

Target Audience

Individuals who will benefit from this course include Product Managers, Project Managers, Scrum Masters, Release Train Engineers, Agile Coaches, Development Managers, Consultants, Architects, Engineers, Directors, Delivery Managers, Solution Train Engineers, Software Developers,Product Line Managers, Product Owners, Business Owners, Business Analysts, Solution Managers, Portfolio Managers, Program Managers, PMO personnel, Process Leads and those interested in pursuing a SAFe® Product Owner/Product Manager certification.
