

SAFe AGILE PRODUCT MANAGEMENT

Course Code: C107

Duration: 3 days

Credits: 24 PDUs

Course Description

This comprehensive three-day course harnesses the power of Design Thinking to develop innovative solutions with proven SAFe capabilities to execute on those visions. Learn the right mindset, skills, and tools to create successful products from inception to retirement using Agile techniques. Recognize how Continuous Exploration fuels innovation and helps you define a vision, strategy, and roadmap to tap into new markets. Find out how to accelerate the product life cycles to get fast feedback and quickly deliver exceptional products and solutions that delight customers all while aligning with your organization's strategy, portfolio, evolving architecture, and solution intent. Attending this course prepares you to take the APM exam and become a SAFe® Agile Product Manager. Attendees who pass the exam receive a SAFe Agile Product Manager certificate, a one-year certified membership as a SAFe practitioner and a SAFe branding kit with the APM certification mark.

Target Audience

Individuals who will benefit from this course include Agile Coaches, Product Managers, Consultants, Agile Trainers and those interested in pursuing a SAFe® 5 Agile Product Manager certification. It is highly recommended to have attended at least one SAFe course and have a background in Product or Solution management.

Course Objectives

- Use Design Thinking to achieve desirable, feasible, and sustainable outcomes
- Explore market needs, segmentation, sizing and competitive landscape
- Manage value stream economics, including pricing and licensing
- Use empathy to drive design
- Apply product strategy and vision
