

SAFe FOR TEAMS

Course Code: C102

Duration: 2 days

Credits: 13.5 PDUs

Course Description

In this comprehensive two-day course, attendees will build the skills needed to become a high-performing team member of an Agile Release Train (ART) and learn how to collaborate effectively with other teams. Attendees will gain an in-depth understanding of the ART, how it delivers value, and what they can do to effectively perform their role using Scrum and Kanban.

Attendees will also learn how to break down features into stories, plan/execute iterations and Planning Intervals (PIs). Finally, they'll learn about the continuous delivery pipeline and DevOps culture, how to effectively integrate with other teams in the release train, and what it takes to continuously improve the train.

Attending this course includes 1-year membership to the SAFe® Studio platform to access the course workbook, e-learning modules, templated resources, facilitation guides, practice and certification exams and the associated SAFe® Practitioner (SP) certification digital badge upon successful exam passing.

Target Audience

Individuals who will benefit from this course include Program/Project Managers, Scrum Masters, Team Coaches/Leads, Release Train Engineers (RTEs), Business Analysts, Agile Coaches, Consultants, Architects, Engineers, Developers, Product Managers/Owners, Change Agents, and those interested in pursuing a SAFe® Practitioner (SP) certification.

Course Objectives

- Summarize Team and Technical Agility and Agile Product Delivery competencies
- Describe the Lean-Agile Mindset, SAFe Core Values and SAFe Principles
- Identify the roles and responsibilities of an Agile Team and an Agile Release Train (ART)
- Explain how to use SAFe Scrum and SAFe Team Kanban
- Summarize strategies for creating well-written Stories in the Team Backlog
- Articulate the purpose of Iteration Goals and PI Objectives
- Recognize the importance of SAFe sync events, integration and demos
- Demonstrate the steps of a retrospective and Inspect & Adapt (I&A)

Course Outline

Day 1:

- Introducing SAFe
- Forming Agile Teams as Trains
- Connect to the Customer
- Plan the Work

Day 2:

- Deliver Value
- Get Feedback
- Improve Relentlessly
- Practicing SAFe
